Innovative energy efficiency solutions

Kingspan Commercial Building Solutions

Kingspan Insulation LLC is a leading manufacturer in energy efficiency and moisture management products, offering high performance insulation, building wraps and pre-insulated HVAC ductwork. Kingspan Insulation is part of the Kingspan Group plc, a global leader in a range of product divisions including pre-insulated building panels, environmental technologies and renewable energy technologies. Its products are among the most thermally efficient and technologically advanced insulation materials available. Kingspan's products help reduce the impact buildings have on the environment throughout their lifecycle through increased efficiencies.

OPTIM-R®

Next Generation Insulation

Kingspan OPTIM-R® is a next-generation insulation comprising rigid vacuum insulation panels (VIP) with a microporous core, which is evacuated, encased and sealed in a thin, gas-tight envelope to give outstanding R-values and an ultra-thin insulation solution. The high level of thermal efficiency—up to R-28 on 1 inch and R-57 on 2 inch using calculated edge thermal resistance properties—combined with minimal thickness, provides an ideal solution for applications where a lack of construction space or depth is an issue such as commercial roofing for waterproofing systems.

The Kingspan **KoolDuct®** System

Premium Performance Pre-Insulated Ductwork

The Kingspan KoolDuct® System is an advanced and innovative pre-insulated HVAC ductwork system which offers benefits such as reduced installation time, low weight, space savings through flush-to-ceiling installation, increased performance and energy efficiency. Kingspan KoolDuct® is UL 181 listed and can easily attain a SMACNA Class 3 air leakage.

Kooltherm®

Premium Performance Rigid Thermoset Insulation

Kingspan Kooltherm® offers an extensive range of premium performance insulation products for wall, floor, soffit (structural ceiling) and concrete sandwich wall system applications. It has a fiber-free rigid thermoset phenolic insulation core that resists both moisture and water vapor ingress, and has excellent fire performance characteristics referenced below.

- Highest R-value per inch among commonly used insulation
- Lowest reported smoke developed index rating for foam insulations and minimal flame spread*
- Lower total construction cost
- Higher ROI on building design

GreenGuard®

Extruded polystyrene (xps) insulation board

Kingspan GreenGuard® XPS Insulation Board is offered in various thicknesses and available in 25 psi and 40 psi, as well as 60 psi for high load-bearing applications. Rigid XPS insulation board can be used as general purpose insulation for roofing, wall and foundation applications requiring a minimum compressive strength.

- R-value of 5.0 per inch of thickness
- Retains insulating properties over time
- Very high moisture resistance
- Continuous Insulation (CI) for walls and below grade floors

GreenGuard® XPS
Insulation for PMR
Systems

OPTIM-R® Vacuum
Insulation Panels

Kooltherm® K8
Cavity Board

Kooltherm® K10
Soffit Board for Structural
Ceilings
